Profile

Recent graduate of the ALX Software Engineering program powered by Holberton Inc, specializing in front-end development. With knowledge in the MERN stack, I'm enthusiastic about furthering my expertise and contributing to impactful projects. Aspiring to expand my skills and become a full-stack web developer to tackle complex challenges and deliver comprehensive solutions.

Skills

HTML5 | CSS3 | JavaScript | TypeScript | React | React Native | Redux Toolkit | SASS | Bootstrap |
Webpack | Node.js | Express.js | MongoDB | Git

Professional Experience

Software Engineer, Branding Routes

Jan 2024 – present
London, England

- Actively contributed to 80% of project development in React Native, demonstrating rapid proficiency acquisition and adherence to industry best practices for mobile app development.
- Working closely with the team to foster a supportive environment and enhance collaboration, driving towards shared project goals effectively.
- Utilized analytical skills to troubleshoot and debug software issues, identifying root causes and implementing effective solutions.

Education

Holberton Inc. (ALX Program)

Jan 2023 – Apr 2024

Completed Software Engineering program

Projects

Personal Portfolio Website [↗](#)

May 2024

- Personal portfolio website crafted with React.js, featuring a responsive and visually captivating layout to highlight my skills, projects, and experiences. Employing modern CSS techniques and animations to enhance the user experience. Additionally, seamlessly linked the website to Google Analytics for comprehensive tracking of traffic patterns.

Eventify - Graduation project [↗](#)

Apr 2024

- Eventify was a collaborative effort among our team of 3 during our time in the ALX Software Engineering program. Together, we developed an event platform aimed at fostering community engagement and innovation. I led front-end development using React.js, React Router, Redux Toolkit, and Bootstrap 5, ensuring a responsive and intuitive user interface.

React.js Agency Website with Responsive Design [↗](#)

Feb 2023

Independently developed a responsive agency project using React.js, further advancing my expertise in working with its components and enhancing my web development skills.

CSS-Powered Website with Advanced CSS Techniques [↗](#)

Jul 2022

Furthered my proficiency in HTML, CSS, and JavaScript through advanced training, equipping me with a repertoire of advanced CSS techniques.

Responsive Dashboard [↗](#)

Nov 2022

Developed proficiency in HTML and CSS through intensive training, enabling successful completion of my first multiple-page website project; created a custom framework to streamline development process and enhance code reusability.
