WORK EXPERIENCE

Software Engineer
Branding Routes

01/2024 - Present   *London, England*

Achievements/Tasks

- Key contributor to **75%** of React Native project development, showcasing rapid proficiency growth and adherence to industry best practices.
- Troubleshot and debugged software issues, resolving over **20** bugs, and enhancing app performance and stability.
- Refactored codebase, reducing app load time by optimizing code logic and improving overall code maintainability.
- Utilized Jira for task management and project tracking, resulting in improved workflow efficiency and team collaboration.

EDUCATION

Software Engineering Program
Holberton Inc. (ALX Program) ↗

01/2023 - 04/2024

SKILLS

HTML5	CSS3
JavaScript	TypeScript
React.js	React Native
Redux Toolkit	SASS
Bootstrap	Webpack
Node.js	Express.js
MongoDB	Git
Jira	Figma

PERSONAL PROJECTS

Personal Portfolio Website (05/2024 - 05/2024) ↗
- Developed with React.js to showcase my projects and skills. Features a responsive design, intuitive navigation, and a visually appealing layout, demonstrating proficiency in modern web development practices.

Eventify - Graduation project (04/2024 - 04/2024) ↗
- Collaboratively developed an event platform with a team of **3** during the ALX Software Engineering program. Led front-end development using React.js, React Router, Redux Toolkit, and Bootstrap 5, ensuring a responsive and intuitive user interface.

Morent (07/2024 - 07/2024) ↗
- A React application built from a Figma design in just 3 days, showcasing a fictional rental company's services. This project highlights my skills in web design and development, delivering a modern, user-friendly website under tight deadlines.

CERTIFICATES

ALX Software Engineering (01/2023 - 04/2024) ↗
Software engineering program designed by Holberton School

Networking (06/2022 - 01/2023) ↗
Completed a course on computer networking fundamentals through Coursera, designed by Google. Covered key concepts, protocols, configurations, and security.

Technical Support Fundamentals (10/2022 - 01/2023) ↗
Completed a comprehensive course on IT support fundamentals designed by Google. Covered essential skills in troubleshooting, problem-solving, and customer service.
