Profile

Results-driven Frontend Developer with a strong foundation from the ALX Software Engineering program powered by Holberton Inc. Experienced in developing high-quality, responsive web applications and dedicated to delivering excellence. Aspiring to expand into full-stack development to tackle complex challenges and drive innovation.

Skills

HTML5, CSS3, JavaScript, TypeScript, React.js, React Native, Redux Toolkit, SASS, Bootstrap, Webpack, Node.js, Express.js, MongoDB, Git, Jira, Figma

---

Professional Experience

Software Engineer, Branding Routes   Jan 2024 – present
                                                                           London, England
- Significantly contributed to React Native project development, showcasing rapid proficiency growth and adherence to industry best practices.
- Enhanced app performance and stability by troubleshooting and resolving software issues.
- Refactored codebase, reducing app load time by optimizing code logic and improving overall code maintainability.
- Utilized Jira for task management and project tracking, resulting in improved workflow efficiency and team collaboration.

Projects

Personal Portfolio Website ⧉   May 2024 – May 2024
- Developed with React.js to display my projects and skills. Highlights a visually appealing layout and modern web development practices.

Eventify - Graduation project ⧉   Apr 2024 – Apr 2024
- Collaboratively developed an event platform with a team of **3** during the ALX Software Engineering program. Led front-end development using React.js, React Router, Redux Toolkit, and Bootstrap 5.

Screen Capture App ⧉   Jul 2024 – Jul 2024
- Developed a screen capture app with well-documented code, using MERN stack. The backend (Node.js, Express) stores screenshots in MongoDB, while the React frontend displays them. Integrated with Electron for desktop functionality and WebSocket for real-time updates.

Morent ⧉   Jul 2024 – Jul 2024
- Developed a React application from a Figma design in 3 days, featuring a fictional rental company's services. Demonstrates web design and development skills with a modern, user-friendly interface.

Education

Holberton Inc. (ALX Program) ⧉   Jan 2023 – Apr 2024
Completed Software Engineering program

Certificates

ALX Software Engineering Certificate ⧉   Jan 2023 – Apr 2024
Software engineering program designed by Holberton School

The Bits and Bytes of Computer Networking ⧉   Jun 2022 – Jan 2023
Completed a course on computer networking fundamentals through Coursera, designed by Google. Covered key concepts, protocols, configurations, and security.

Technical Support ⧉   Oct 2022 – Jan 2023
Completed a comprehensive course on IT support fundamentals designed by Google. Covered essential skills in troubleshooting, problem-solving, and customer service.
